03 • COMPETITIVE YIELD ARBITRAGE & LIQUIDITY SURVEILLANCE

Retail Deposit Yield Arbitrage: Neo-banks (Wio Bank at 5.25% promo rate) and digital accounts (FAB iSave at 5.10%) are aggressively bidding for short-term retail liquidity. Yield-sensitive cohorts are parking funds into 3-month high-yield promotional deposits, dampening Saving Bonds fresh inflows.	Duration Lock & Institutional Stability: Term Sukuk contracts (1Y to 3Y fixed maturities) maintain an 87.4% retention rate. Redemptions were concentrated in flexible retail certificates (AED 194.2M). Matured capital was successfully rolled into structured 2Y Booster tranches at a 74.2% capture rate.
