UNDERPERFORMING ENTITY	Saving Bonds	DEFICIT GAP	-10.2% (AED 5.82M Shortfall)

CRITICAL COMMERCIAL BREACH NOTICE: Saving Bonds monthly net inflows closed at **AED 51.18M** against an ALCO approved target of **AED 57.02M** (AED 5.82M net deficit, -10.2% deviation). This marks consecutive reporting periods wherein variance exceeded the -8.0% tolerance band. Pursuant to Commercial Governance Charter Section 4.2, immediate executive intervention directives are submitted below for GCCO ratification.

01 • 12-MONTH INFLOW TRAJECTORY VS TOLERANCE BOUNDARY

02 • CHANNEL ATTRIBUTION & LEAKAGE ROOT CAUSE DECONSTRUCTION

Mobile App Gateway Friction (-68.4%): Payment gateway migration on June 3rd caused authentication retry timeouts on recurring debits. Drop-off surged from 4.1% to 19.8%, stranding an estimated **AED 3.2M** in uncaptured monthly top-ups.

Neo-Bank Competitor Yield Premium: Aggressive 5.25% promotional deposits by digital neo-banks triggered opportunistic withdrawals among Mass Affluent savers (AED 50k - AED 250k tier), dampening demand inflows.

03 • MANDATED COMMERCIAL RECOVERY DIRECTIVES (GCCO DIRECT EXECUTION)

Directive 1 (Urgent): Hotfix Mobile Payment Gateway & Reinstate 1-Click Apple Pay Engineering team to rollback the buggy authentication timeout and restore single-tap recurring top-up.	+AED 3.2M Inflow Recovery Owner: Digital Lead • ETA: 48h
Directive 2: Deploy 5.30% 6-Month Booster Sukuk Flash Tranche Launch targeted promotional yield tranche directly in mobile app to counter neo-bank churn.	+AED 4.5M New Liquidity Owner: Commercial Strategy • ETA: 5 Days
